RE: WC Docket No. 06-74, Support for AT&T BellSouth Merger

Dear Commissioners:

As an economic development professional in Marshall County, Alabama, I am writing to urge swift approval of the BellSouth/AT&T merger. This merger will address one of the most critical needs required of any community seeking to grow its economy and new jobs – ubiquitous broadband Internet access. It is a key element in not just building our infrastructure but also our workforce of the present and future.

Economic development can and is hampered in areas where broadband is not readily available. The proposed AT&T/BellSouth merger could be the catalyst for dynamic economic change in our rural communities. As a proposed condition of the merger, AT&T and BellSouth have committed to deliver *affordable* and *universal* access to broadband, including:

- ☒ A new residential broadband offering set at \$10 per month, affording many rural communities a viable alternative to dial access;
- ☒ A pledge to provide broadband Internet access to *all* residential living units in the AT&T/BellSouth service area, providing economic developers a necessary tool to recruit new economic development prospects to our rural communities.

The merger of these great American companies will significantly enhance the economic viability of the communities we serve. I ask you to approve the AT&T / BellSouth merger without further delay.

Sincerely,

Matthew M. Arnold
President & CEO
